Football takes center stage

MinerPalooza

More than 30,000 people expected at annual event

Football takes center stage
Miners ready, excited for 2011

BY MIKE PRICE

We are going to have an exciting team this year. We have a lot of new faces on offense, including a quarterback in Nick Lamaison, who posted a 26-1 record as the starter for a junior college team that won the 2010 national championship.

We have loads of experience at running back in seniors Joe Banyard, Vernon Frazier and Leilyon Myers, and a talented group of young receivers. Our defense improved in leaps and bounds last year and allowed the third-fewest points per game in Conference-USA. We expect to take some strides this year with eight starters returning on that side of the ball.

Last year, we posted a 5-1 record in the Sun Bowl and have won eight of our last 10 games in the stadium.

As always, we need your help in maintaining one of the top home field advantages in college football. This is your team and I hope to see you in the stands for all six home games this year, starting on Saturday.

Let’s show the rest of the country why our student section is second to none!

So get you fired up for the game, we will be having the Miner Kick-Off Bash from 2-6 p.m. Sept. 3 at the geology lawn. There will be music, inflatable games, giveaways and a pep rally with the band, cheerleaders, Goldiggers and Paydirt Pete.

Come celebrate the start of a new season, and then take your seat in the stands and see how deep our self-scouting really works, and the first class will include free drinks (UTEP drink holders). Let’s make sure the place is rocking for kickoff!

As always, thank you for your support. I will see you on Saturday.

Go Miners!

Minerpalooza set to celebrate start of semester, football season

By Adam Martinez

As Minerpalooza, the annual Minerpalooza set to celebrate start of semester, football season 6 p.m. Sept. 2 on the UTEP campus. The event will include a pep rally, food, games and live music performances.

Minerpalooza set to celebrate the start of a new semester and football season.

After more than 30,000 people filled the UTEP campus last year for Minerpalooza, the event will include a pep rally for the UTEP football team and to welcome the student body. Guest speakers will include UTEP President Diana Natalicio, football coach Mike Price and academic deans.

One of the exciting things that is new this year is composer between Di’s Johnny Kage and Erika Portillo, coordinator at the Student Center of Activities. The longer parade route will allow the band to perform longer to showcase the music they have been working hard on, and also because of the bigger audience, we expect it will give more space for people to use the parade. And in a little extra fee, people will be able to enjoy everything from the air conditioned Panhandle Pavilion.

Music performances will include Fountain Bungalow, Del Rio, Red City Blue, Minneapolis Lee Minnions and a music-off between Di’s Johnny Kage and Erika Portillo, coordinator at the Student Center of Activities. The longer parade route will allow the band to perform longer to showcase the music they have been working hard on, and also because of the bigger audience, we expect it will give more space for people to use the parade. UTEP opens recreation center
Campus

UTEP Student Recreation Center, formerly the Swimming and Fitness Center, was officially opened Aug. 29 after a $32 million upgrade of the center.

The new state-of-the-art gym includes an indoor 1/8-mile running track, multiple levels devoted to free weights and cardiovascular equipment, a 12,000-square-foot hardwood floor, an indoor soccer court, a recreational area for a future juice bar or food vendor, fully equipped locker rooms, and a climbing wall.

Gibbens said this event is not only for UTEP students, but also opens the door for the El Paso community to get involved with the university and to see the work students organizations are doing to help the community.

“This is not only a fun event for the El Paso community to come celebrate the UTEP football team, but it is also a chance for them to see what our student organizations are doing and the effort they put in at UTEP,” Gibbens said. 

Minerpalooza will run until midnight. Free parking is available at the Sun Bowl Parking Garage. The UTEP pep rally will start at 7:15 p.m. and the last live music performance will be at 10:30 p.m. with DJs Johnny Kage and Esteban Carrasco.

For more information on Minerpalooza, visit www.utep.edu/minerpalooza.

Coke vs. Pepsi: Which one do you prefer?

“I prefer Coke. But drink more water.”

“I prefer coke because they have more options.”

“I prefer Coke because that’s the soft drink I’m used to drinking.”

“I don’t really care. I drink Dr. Pepper... this should be a Dr. Pepper... this should be a Dr. Pepper... this should be Dr. Pepper.”

“I like Coke better than Pepsi, with Coke.”

“They have more flavor combinations!”

“That’s not even a question, Coke. Coke. Coke.”

“I like Coke better than Pepsi, and I don’t really mind the change and I’m happy about it.”

“Pretty much every time.”

“I really don’t mind it. I don’t really mind the change and I’m pretty happy about it.”

“It’s a personal preference.”

“I prefer Pepsi, because they have a wider variety to choose from.”

“ prefer Pepsi because they have their original taste.”

“I really don’t care to be honest.”

“I like Pepsi better than Coke, so I don’t really prefer any.”

“Any day, with Coke.”

“I prefer Pepsi because they have more variety.”

“Any day, with Pepsi.”

“It’s a matter of taste.”

“Any day, with Pepsi.”

“We have more variety, with Coke.”

“So I just stay with what I know!”

“Any day, with Pepsi.”

“It’s a matter of taste.”

“Any day, with Pepsi.”

“I really don’t mind the change and I’m pretty happy about it.”

“Any day, with Pepsi.”

UTEP opens 2011 campaign against one-dimensional Stony Brook

By Daniel Ornelas

The Prospector

Despite the difference in their 2009 records, the Stony Brook Seawolves (0-12) and the UTEP Miners (5-7) enter their 2011 football season with one goal in common: to make fans forget the loss of the previous season.

“We’ve seen they really like to run the ball; they run it a bunch of different ways. They try and confuse you with their running game,” sophomore defensive end Bernard Obi said. “They’re not a thirsty offensive team, they’re going to line up and pound it right at you.”

Head coach Mike Price knew that in order to beat Stony Brook, stopping their rushing attack will be key, but there are other aspects to look for in order to defeat the Seawolves.

“They’re a much better team than I anticipated. They have 19 returners, they have a big line, they recruit nationally and (back coach Chuck Price) has done a really good job coaching them,” Price said. “We’ve played hard, it’s going to be a battle all over again.”

The defensive side will have its hands full against the Seawolves. Players and coaches alike recognize that smart play will be crucial to having success against the rushing attack.

“It comes down to technique and proper run fits. They do a lot of things with formations that can get you in trouble,” defensive coordinator Andra Patterson said. “You don’t have to know how to line up on their different formations and how people are supposed to fit in the running game, you can get by. That’s what you see them a lot of times on tape.”

Patterson knows that the Seawolves will use their plethora of formations to test the Miners’ defense, and technique is something players are even preaching to themselves.

“We have to make sure we keep on technique, technique, technique. That’s the most important thing when you’re playing a team like this. If one guy’s in the wrong place, they could break out for a 40 or 50 yard run,” sophomore defensive end Bernard Obi said. “The big part of the game is the proper run fits. We need to prepare for Stony Brook to be key to our technique and make sure I line up on the technique.”

Junior redshirt freshman quarterback and first-year starter Nick Lamaison is comfortable with having the Seawolves as the first opponent for the Miners.

“It’s good to come out and play like we have a lot of talent, but we have to play technique and make tackles against,” Lamaison said. “The Miners look to have a very good Division I A-AA and a Bowl Championship Series school in the line up.

Stony Brook is a small school but they can cause tough situations on our schedule. Although they are playing a team from a sub-Division, Lamaison understands that his team still has things to work on before they meet up with Stony Brook.

“We need to work on between now and Sept. 3. “We will have to work a lot of film, know everything this team is going to do and every formation,” head coach Mike Price said. “This is going to be a really fun player here.”

The 6-feet-1-inch, 220-pound quarterback was recruited as a safety, but was made a linebacker after putting on 30 pounds of muscle during the offseason. Price and defensive coordinator Andra Patterson have seen the progress Pickett has made during his sophomore year and he’s potential.

“Fishing has been really good as well and out and about here on our games. I get a lot out of it.”

“I think we’ll be ready.”

Brookhaven, New York

Junior defensive end Redshirt freshman Michael Pickett always had his own fan in the stands during his time in high school and college, but the person who really believed he could make it to the next level was his mother.

“I have a tattoo on my arm for my pops, I’m playing this for him and she doing this for my mom because she’s missing him even more,” Pickett said. “She didn’t just lose a daughter, she lost a lifetime partner. Price understands what Pickett is going through and has no plans to rush him into the mix.

“The was a hard freshman run, his father passed away (recently). That’s the worst thing I’m going through and has no plans to rush him into the mix. “I have a tattoo on my arm for my pops, I’m playing this for him and she doing this for my mom because she’s missing him even more,” Pickett said. “She didn’t just lose a daughter, she lost a lifetime partner.”

Volleyball

Team goes undefeated in first weekend of the season

By KRYSTAL OBLINGER

The Miners opened the game with 105 and recorded nine blocks, like blocking and just the way we connected in our offense, but we can get better at it and we are going to try to make this a pretty special year.” Murphy said.

"Most of the time, I don't get that nervous,” Kimaiyo said. “I just tell myself, ‘if everyone can do this, so can I.’”

The set of the Miners had been on fire last year as well. Sophomore Gladys Chirchir finished third at the Lori Fitzgerald Invitational and was named first-team All-County in the men’s meet. She also made second-team and second-team All-County and was named first-team All-County in the women’s meet.

For the men’s team, Eliana Retich was the big star on campus in 2010. He won the C-USSA championship, was 2010 C-USSA Male Athlete of the Year and picked up First Team All-Conference honors. He also scored five goals at the Lori Fitzgerald Invitational and was named second-team All-USSA. He also scored five goals at the Lori Fitzgerald Invitational and was named second-team All-USSA.

Junior runner Justice Chirchir won the national title,” Kimaiyo said. “I felt nerves because this is my first year ever playing outside (hitter),” Horton said. “I’ve been playing middle (blocker) since I was little, but it’s great because my team believes (in) me and my coach believes (in) me.”

The Miners also took on Southern University and Portland State on Aug. 26. Both lost five games at the Lori Fitzgerald Invitational against Niagara College, which were really solid. Experience against UT-Arlington Aug. 27 at Memorial Gym.

The Miners won the game with 105 and recorded nine blocks, like blocking and just the way we connected in our offense, but we can get better at it and we are going to try to make this a pretty special year.” Murphy said.

"Most of the time, I don't get that nervous,” Kimaiyo said. “I just tell myself, ‘if everyone can do this, so can I.’”

The set of the Miners had been on fire last year as well. Sophomore Gladys Chirchir finished third at the Lori Fitzgerald Invitational and was named first-team All-County in the men’s meet. She also made second-team and second-team All-County and was named first-team All-County in the women’s meet.

For the men’s team, Eliana Retich was the big star on campus in 2010. He won the C-USSA championship, was 2010 C-USSA Male Athlete of the Year and picked up First Team All-Conference honors. He also scored five goals at the Lori Fitzgerald Invitational and was named second-team All-USSA. He also scored five goals at the Lori Fitzgerald Invitational and was named second-team All-USSA.

Junior runner Justice Chirchir won the national title,” Kimaiyo said. “I felt nerves because this is my first year ever playing outside (hitter),” Horton said. “I’ve been playing middle (blocker) since I was little, but it’s great because my team believes (in) me and my coach believes (in) me.”

Miners keep things rolling, advance to 3-0

BY WILLIAM VEGA
The Prospector

The UTEP Miner defense continued their stout start as the Miners defeated Houston Baptist Aug. 26 and Prairie View A&M Aug. 28, 4-0, in both games at University Field.

With freshman goalkeeper Sarah Dilling in front of the net, the Miners got off to a quick start. They scored four goals against Prairie View A&M in the first half and did not allow a single shot on goal.

While the Miners were unconcerned in finding the UTGK goal, they were able to keep the ball in their own net. Thirteen minutes into the game, the Miners got on the board when senior midfielder Katie Dorman's corner kick was deflected in by Prairie View A&M's freshman midfielder Reina Mata.

It took another 10 minutes for UTEP to get back on the board when sophomore midfielder Kenah Linger lobbed the ball from the right sideline, which then found its way through a pair of Panther defenders. Freshman midfielder Lauren Katada was on the receiving end to chip the ball in easily for her second goal of the season.

The next two goals came just a minute later when junior forward Brittany Kindzierski made an unassisted goal near the crossbar for her first goal of the season.

Fifty-eight seconds after checking into the game, freshman midfielder Madison German scored the Miner fourth goal of the day. Sophomore midfielder Jake Beards brought her defender, and then brought the Panther goalie to it as she found German for the wide-open goal.

While the Miners were unable to extend their lead in the second half, second-string goalkeeper and senior Chandra Morden stopped it twice off three Prairie View shots.

"I think we're pretty solid (on defense) because we have a lot of depth this year...that was pretty hard playing the entire time, especially against Houston last year, who came at us the entire time," senior defender Jessie Pettit said. "We were pretty tired and finally they scored because we can't hold them off the entire time. Now we have subs, so I think that will help us a lot."

Things got testy in the last 45 minutes as both teams were called for four fouls each in the half. A yellow card was issued to Panther junior forward Toshedin Aguilar when she pushed UTEP's sophomore midfielder Gina Soto along the sideline. Soto was taken out when she injured her ankle on the play, but no updates have been made on her status. Head coach Kevin Cross said she will get an X-ray to see if it's broken.

"They were really just sliding in for ankles. It's not like we were backing away from them," Cross said. "We need to play the ball around quick and avoid those challenges."

The Miners showed some against their opponent Aug. 26, as well, when they defeated the Houston Baptist Huskies. UTEP scored twice in a matter of three minutes when freshman forward Amanda Pak knocked in a rebound in the 55th minute and Soto added another in the 86th.

"We came out with two wins, so we'll take that in the road. We have to be better on the road as compared to last year," senior midfielder Katie Dormin said. "I think our coaches have been drilling that into our heads. We have to play two games every weekend, twice every game and come out for all of it."

The Miners will now head to Nacogdoches, Texas for their first road game of the season against Stephen F. Austin Sept. 2. They finish the weekend in San Marcos Sept. 4 when they take on Texas State.

William Vega may be reached at prospector@utep.edu.

Sophomore midfielder Gina Soto slides for a ball during the Miners’ 4-0 victory against Prairie View A&M Aug. 28 at University Field.
One of the most anticipated music events of the season, the Sun City Music Festival, will feature three stages and 30 DJs during Labor Day weekend, Sept. 3-4, at Cohen Stadium.

“My friends and I are super excited,” said Eric Atkinson, freshman pre-med student at the Minneola music festival, “because there are so many good musicians, and I’ve never been to El Paso before.”

“I think we have good team chemistry, team,” head coach Mike Price said. “We’re going to be very enthusiastic, and we’re going to be very exciting, and we’re going to have some depth.”

“The amount of DJs that we have on this stage, it will be a 24-hour festival,” Bocanegra said. “Therefore, we have two days and three stages, one each day will feature the DJs by genre. The Sun City main stage will feature American Yum Bento and Atol, among others. The Electro Center stage will feature the DJs whose music is a mix of the dance and disco genres. The third stage will be the Rio Grande stage, which will feature the dubstep and world dance music. We are going to give the music and the lights according to each genre. Bocanegra said, “Also, the sound won’t match together, we have some good sound engineers that have it all planned out.”

The event will also showcase local DJs such as Bocanegra, Yrri Espinosa, and Raul Ordonez.

“Our goal is to bring a lot of energy and contribute to El Paso’s electronic music culture,” Bocanegra said. “We also had people nominate their favorite local DJ and we had over 100 votes.”

“Culture is one of the local DJs who will be featured at the Sun City stage on Sept. 3. He said that this will be his biggest event since the Notocural Music Festival in Austin last year.

“We’re young, full of energy and enthusiasm, and we’re going to be very exciting, and we’re going to have some depth,” Bocanegra said.

“With over 1200 RSVPs, Bocanegra said that they are expecting approximately 30,000 people per day, and possibly more.

Ticket prices have been going up as the date comes closer. “Tickets are going to be on sale very soon,” Morrow said. “We’re going to have some early bird tickets available for the first few days.”

Ticket prices have also gone up and are currently $46 per day and $55 for the festival.

“With over 9,000 RSVPs, Bocanegra cited to please my fans and hopefully make some new ones. “Carrasco said. “The biggest event since the Nocturnal Raves stage on Sept. 3. He said this will be his biggest event since the Notocural Music Festival in Austin last year.

“The Sun City Music Festival will feature 30 musical acts at Sept. 3 and is expecting 10,000 people per day at Cohen Stadium.

“We’re going to give the music and the lights according to each genre. Bocanegra said, “Also, the sound won’t match together, we have some good sound engineers that have it all planned out.”

Morrow and the Dirty River Boys played Aug. 26 at Fort Bliss and are currently touring on the Red Bull Tour Bus.

“My friends and I are super excited,” said Eric Atkinson, freshman pre-med student at the Minneola music festival, “because there are so many good musicians, and I’ve never been to El Paso before.”

Morrow and the Dirty River Boys played Aug. 26 at Fort Bliss and are currently touring on the Red Bull Tour Bus.

“Just like every other event or concert, tickets go up on the last couple of days,“ Bocanegra said. “There is always an incentive for the people who buy their tickets early.”

The concert’s schedule included mostly Typhoon and guitar-driven prowess folk. That called for some country dancing on the grass lawn.

“The song, “Texas Time Travelin'” was perfectly sung to a crowd of about 300 people, which included soldiers, cowboys and everybody else in-between. The不出去, country music tour also stage- ened for Morrow and the band, who will be performing at a different city each day. The tour was the first step of a number of concerts set to end in Law- rence, Oklahoma Aug. 31. Morrow and The Dirty River Boys have been working together for two years. The Dirty River Boys, who took their name from the Rio Grande, was discovered by Morrow and his man- ager Frank Jones, who lives at Austin Art. They have opened for a number of acts, including The Needles and the Nerve.”

Artists exhibit their work at local venue

The Loft Light Studio adds to El Paso’s art scene last Thursday of each month

BY CHRISTOPHER RIVERA

When walking into El Paso street, among the vendors selling discounted clothing, shoes and jeans, it may be hard to find light Loft Studios. As you walk through a small door and up a narrow green corridor, you'll find a place where music resonates with the arts, and also a place that not only hosts concerts, but also fashion shows.

Carlo Mendo and Marcos Gurrola, two local artists and entrepreneurs, collaborated to break new artistic grounds in the city by opening the studio about a year ago.

“I’m With You,” it is simply a tale of a studio about a year ago. Carlo Mendo said. “It comes down to private citizens investing millions of dollars into the city and hope that it’s something like this, but it is possible.”

Within this studio is a purpose, one that’s how tough it is to do something that you love. It was a great opportunity for us to do something that we enjoy and that we want the whole art world to see.

Loft Light Studio, the people who work here, are always involved in different things that are positive for the community” Mendo said.

Their most recent project was “Painting Smiles,” which was done in collaboration with the Association of Parents of Kids with Cancer and Leukemia.

The Loft Light Studio’s recent project “Painting Smiles,” collaborated with the Association of Parents of Kids with Cancer and Leukemia.

The goal was that with Loft Light Studio they could find a place where they could host events all the time. They also said they wanted to bring to the community that you love arts and want to enjoy the arts in different ways.

“These are not a lot of outings for artists, photographers or designers to go and show their work. We like opening our doors for people to come in and show their artwork, photography and design,” Gurrola said. “We want to create an outlet for them and they can come in and express themselves.

Ohioans believe the studio’s own will have a positive influence on LP’s art scene.

“Thanks to the people who come in, they get out of their comfort zone, and we very much appreciate that,” Mendo said.

“Just remember, it’s a place where aspiring young artists are always involved in different things that are positive for the community” Mendo said.

The Chili Peppers foreshadowed the takeover when their first single, the album, “The Adventures of Buriedags Maggie,” was released in July. The first 20% of the songs on the album, the “post-rock” musical play, though becomes the band’s second album to showcase his skills, Rick Rubin, drummer of the original Chili Peppers album since 1991. “Hot Blooded Woman,” literally turns the band throughout the entire track.

This is a technique in songs, in this case, you’ll find “Lessons in Love” which set the event as one of their benefits.

Mendo and Gurrola, set their most recent project was “Painting Smiles,” which was done in collaboration with the Association of Parents of Kids with Cancer and Leukemia.

Dear Thayer, you talked to me about it and was looking for a place to host the event. I couldn’t say no it was a great opportunity for us to help somebody,” Gurrola said.

“We took a group of parents, Victor Ochoa, to talk about how to help people, to have a place where they can come in and feel supported, it was really good,” Mendo said.

The album’s description is perhaps the most challenging style, demanding critical thinking, and a creation sense of innovation. In these additional complexities that highlight the sense of realism.

Arionas moves closer to the truth, his character will be progressively upgradable. Whether it is stronger, improved hacking skills or efficient rhythm, the capabilities you choose to strengthen will vary at least how complete challenges and missions.

Although the game’s highlights are accessibility, it too necessitates entirely the eliminations of flaws. Forcing players to rely on heavy gun fire, Boss can render stealth-based players underpowered if it is equipped with adequate armaments, the difficulty can often result in great frustration.

Character animations also prove to be a deepening contrast to the otherwise modernistic environment. While facial and body expressions are high in detail and animation, hair and clothing movement is virtually indistinguishable.

“Deux Ex” overall presentation and services will be totally different, which set the event as one of their benefits.

“If you chose to avoid casualties, the city will make players want to come back to the game,” Mendo said. “I think this event will be pretty big. I think they’re going to come back to El Paso in the future.”

For more information regarding Loft Light Studios, call 915-475-1029 or you may find them on Facebook.

“Deux Ex: Human Revolution” is a great game and sells replay value.

Following leads to cities such as Johannesburg, Shanghai and Detroit and features a plot which will make players fulfill the aspiration away they see fit.

“The Adventures of Buriedags Maggie” was a great opportunity for us to do something that we enjoy and that we want the whole art world to see.

Special to the Prospector

According to Mendo, the purchase of VIP tickets, the audience will have access to an exclusive area where alcohol will be sold.

“We’ll help separate the 21-and-over crowd from the under crowd,” Mendo said.

The event has been presented in El Paso and in neighboring cities like Chihuahua, Albuquerque and Austin. Mendo said has been set up, which the event or one of their destinations, and Bocanegra.

“I think this event will be pretty big,” Mendo said. “I know from friends in Dallas and El Paso are coming.

With the exception of having people from out of town at the event, Bocanegra said they partnered with many local businesses in order to El Paso Image, Plan City Lounge and Executel Homes as among the event partners.

“We decided to go green and warm up with the recycling company in order to recycle batteries all over the event site,” Bocanegra said. “We believe that the environment is an issue.

A percentage of ticket sales will benefit the El Paso Police Foundation and the city of El Paso Monitor and Cultural Affairs Department. According to Bocanegra, these programs will help the KFEP with various programs that will bring the arts to the students.

“I believe those students are the future of Chihuahua,” Bocanegra said. “They might be the next big thing that comes to El Paso in the future.”
